FINANCIAL AND COMMERCIAL

Stocks Somewhat Stronger-A Pacific Mail Report-Rumors of Trouble-An Active Market.

GOLD CLOSED AT 117 1-4.

Money Abundant at 1 1-2 and 2 Per Cent-Commercial Paper Unchanged-The Foreign Market Dull.

Wall Street, Wednesday, Sept. 29-6 P. M. }
The stock market to-day was again led by Pacific Mail, which in turn communicated sympathetic strength to other securities. It was suggested in this column yesterday that the price would touch 38. It barely did so. Thereupon the street was flooded with roorbacks. Some of these referred to well known nouses, and for the moment the undercurrent of excite ment ran strong. Another rumor was somewhat bette defined, and concerned the welfare of the Third Avenu Savings Bank, of which it was said that three of it trustees had gone to Albany to make application for the appointment of a receiver. Although the payments of the day may not have been suspended by the bank, and the report of its failure was semi-officially contradicted, the belief is still uppermost that the institution is in trouble. It would be among the most unfortunate incilents of the existing situation if the distrust that attaches to speculative securities should extend to the poor people whose little capital is invested in the banks, nd it is to be sincerely hoped that every effort will be made to sustain their credit. The report of Vice President Scott concerning Pacific Mail is not everywhere regarded as satisfactory; but perhaps the reason is that the story published yesterday of the sale of the side-wheel steamers on the China line turns out to be A BARE PALSEHOOD,

and follows into obscurity a hundred others of similar import that have been given out for no other purpose than to delude the credulous. The report in full will be found elsewhere. A correspondent, on this subject, makes the following comments:-"It will be well for the public to note that while the report gives the total sums accruing as due before December 1 on the three new steamers, all such items are omitted from the present indebtedness, for it is well known that the company gave Mr. Roach its notes for about \$330,000 before obtaining possession of the City of San Franciscosum greater than the total of bills payable now given. Again, in this statement no allowance is made for cash assets on hand March 1, or for receipts from the sales of real estate and other property, which have amounted to over \$700,000. It is quite evident that this state. ment is no more reliable than those which were so freely circulated about one year ago. Yet it is not unlikely that while the public would do well to improve this opportunity to sell the stock they hold, the present position of the stock might make it dangerous for operators to sell it for 'short' account." THE STOCK MARKET.

As before indicated, the leader of the market was Pacific Mail, of which some 103,000 shares were sold. The opening price was 36%. There was then an advance to 38. Rumors of a favorable report, coupled with the forced covering by the shorts, led up to this result. Quickly, however, other and more damaging canards took their place, and the price fell off to 36% a 36%, at which the close was made. The next most active stock was Western Union, which sold from 76% to 76%, feil off to 75%, and closed at 75%. Wabash advanced from 6% to 7%. Lake Shore ranged between 53% a 54%, but at the close was weak at 53%. Hannibal and St. Joseph moved up to 19% per cent, and ended at 19. Atlantic and Pacific preferred sold down 914, and Missouri Pacific to 42. Both of these stocks were depressed by discouraging rumors connected with certain law suits that were pending; but from one of the officials of the former company—both are closely identified—we received the following copy of a despatch from St. Louis, sent at a late hour to-day:-"The case of George Opdyke and others against the Missouri Pacific Railroad has been tried, and final judgment rendered in favor of the railroad company. There is no appeal from this

St. Paul advanced from 34% to 34%, closing at 34%. All the Western shares are attracting more attention from the fact that reports about business in the West are cheering. Union Pacific advanced to 70% and closed at 69% a 70. Harlem sold at 130%, against 132 Erie fell off to 16%. Michigan Central advanced from 55 to 5736, closing at 5636. Ohios reached 17, but ended at 16%. Northwest common advanced to 40, but reacted to 39%. Rock Island closed at 108, the best price of the day. Erie sold at 16% a 17% and closed at 16%. Other changes are comparatively un-

THE MONEY MARKET. Money shows no change, and call loans are quoted as

heretofore at 11/2 and 2 per cent. Prime discounts rule Foreign exchange was heavy and unsettled, the rates

paid for active business being quoted nominally at 4.78 and 4.82,

The London advices report a loss of £108,000 bullion by the Bank of England on balance to-day. The rate for money at the Stock Exchange on government securities is 13% per cent. To-day is settling day at the Stock Exchange. Flatness continues to prevail. The bears are taking advantage of the rumors of a difficulty being probable with China, and prices have yielded in consequence. In United States government bonds the five-twenties of 1865 have fallen back %, five-twenties of 1867 % and new fives %. The market for Eric Railway shares is fairly steady and the prices have advanced 14, they being quoted now at 15. The Totals......\$63,646,700 \$63,983,800

declined one per cent, thus losing the advance noted in them on Monday. The price now The price now Consols have again declined % per cent, the price for them now being 93%. The volume of busiss transacted is small, and there has been no changes of any consequence. There has been more inquiry for money to-day than for some time past in the open ant market. The current rate is two per cent.

of the Illinois Central Railroad have NEW YORK STOCK EXCHANGE SALES | were quiet and firm. Bides were dull. Hemp and jute were quiet. Gunnies were quiet.

ceries were quiet and steady. COPPER.—The market for Brazil was quiet and arm. We note sale of 4,379 bags Rio, ex Catharine, good ordinary, at 19½c., gold; mild grades were steady. We quote:—Ordinary cargues, 19c. a 19½c.; fair do., 20½c. a 20½c.; good do., 20½c. a 21a.; prime do., 21½c. a 21½c.; extreme range for lots, 19c. a 22½c.; Santos, fair to good, extreme range for lots, 19c. a 22½c.; Santos, fair to good, 20½c. a 21½c.; gold, ninety days; Java, government bags, 29c. a 27c.; do., grass mats, 27c. a 29c.; Singapore, do., 22c. a 24c.; Oeylon, 21c. a 22c.; Maracalbo, 20½c. a 23c.; Laguayra, 20½c. a 21½c.; Jamaica, 18½c. a 20c.; St. Domingo, 18c. a 18½c.; Porto Rico, 18½c. a 21c.; Costa Rica, 19c. a 21½c.; Savanilla, 20c. a 21½c.; Angostura, 19c. a 21½c.; Savanilla, 20c. a 21½c.; Caracos, 19c. a 20½c. Corroo on the spot is mederately active with some demand from exporters, with the bids, however, generally too low to admit of any considerable business. Spinners are cautious and only purchase as present exigencies demand, Quotations, while unchanged, must be regarded as extreme, especially for high grades, which are only salable at material concessions. The offerings are tolerably free, but not sufficiently large to cause any great pressure. The tendency of the market, however, continues unmistakably downward. "Notics" have been offered to exporters at prices materially below quotations. At the openling of Change future below quotations.

RAPID TRANSIT.

A PLAN TO BE ADOPTED AT ONCE-INVENTORS ORDERED TO REMOVE THEIR MODELS. The Rapid Transit Commissioners yesterday devoted

the greater part of their session to a discussion of the specifications to govern the New York Elevated and Gilbert Elevated railroads in the construction of the proposed roads. The nature of these deliberations, of course, cannot be disclosed. The Commission had in consultation with them for several hours Mr. Foster, President; Mr. Alexander, counsel; Mr. Navarro, capitalist, and Richard Wilson, engineer, of the Gilbert road, and President Courtwright, of the Greenwich Elevated road. One of the Commissioners stated to a Herath reporter that it was not at all likely that any plan now before the Commission would be adopted in its entirety. "It is impossible to find a perfect plan, as it is impossible to find a perfect man, and we will endeavor to adopt the best features of the best plan." It seems, therefore, pretty certain that the public are not likely to be inflicted with any "railroad on stilts," like the present

fore, pretty certain that the public are not likely to be inflicted with any "railroad on stilts," like the present Greenwich road, which has proved a successful experiment but not such as should be set up as a permanent rapid transit line.

There was much rejoicing yesterday over the rout, horse, foot and dragoon, of the horse car commanies as represented in the advocates of the depressed system. For days these gentlemen lobbylists have been at work industriously to mistify and delay the Commission, hoping to prevent the adoption of a plan within the time specified in the law, in the hope that a new commission might be appointed who would dilly daily until the Legislature meets, when the horse car companies would be masters of the situation. They have resorted to all manner of misrepresentation, and in some instances falsehood, to carry their point, but happily have failed, as they exposed their whole mode of campaign too soon. Among other stories they circulated with a view of prejudicities public sentiment against the Commission, and in support of the appointment of another one to succeed it, the statement that Commissioner J. L. Mott is a \$1,000,000 stockholder in the bankrupt Boston and Montreal Railroad, and supported the elevated plan to make it a feeder for his own line. Mr. Mott authorizes the statement that he has not a doilar's interest in the road in question. Hearings were given yesterday to the plans of Ira Buckman, Alexander Brandon, James E. Serrell and General Roy Stone, representing the Phomizville (Fonn.) Iron Company. This Company presented a model of a saddle-back elevated road, fifty feet span, the cost of construction of which they refused to divulge.

The officers of Part I, Court of Common Pleas, having notified the Commissioners that the room is to be occupied by the Gourt, the Commission will to day vacate and occupy a room on the floor above, which is entirely too small to hold the models they have before them. They have, consequently, notified inventors to remove their models at onc
